## Editing Internet Port Connection Server and NTRIP information

With the change over from Pleiades Data Corporation RTK corrections services to Leica's SmartNet North America will require the user to change the assigned SERVER TO USE in the Internet Port Connections.

All support issues related to network connections, usernames and passwords, are now being handled by Leica SmartNet support. Contact: <u>https://support.smartnetna.com/hc/en-us/</u>

Calgary Office #2, 21 Highfield Circle SE Calgary, AB T2G 5N6 (403)259-3992 Edmonton Office 16304 111 Avenue Edmonton, AB T5M 4G3 (780)486-2155 Vancouver Office #10, 3671 Viking Way Richmond, BC V6V 2J5 (604)214-9453

The **BASIC SETTINGS**, **RADIO/MODEM** & **ANTENNA/SATELLITES** settings <u>do</u> <u>not change</u>. Simply click the two radio buttons and then the green check mark.

The REFERENCE NETWORK settings are what we need to change. Enter the new server address, port number and username and password provided by Leica SmartNet.

WWW Address: ab.smartnetna.com (for Alberta)

bc.smartnetna.com (for British Columbia)

Port Number: 10000

username & password are provided by Leica SmartNet.
